Nature & Scope

Agri Magic Limited is driven by the needs of its customers, the agricultural producers of Canterbury. Agri Magic exists to support farming customers future through:

1. Supporting farm businesses in achieving objectives through providing a framework to manage change and facilitate continuous improvement
2. Growing the skill and capability of others – employ coach and train others to work in our business with us
3. Making a profit and in doing so utilise the same systems and continuous improvement approach as we use when working with farm businesses

Agri Magic Limited is an emerging business established in June 2015 with an objective to grow to a medium sized service business focussing on the Canterbury market in the medium term.

To ensure that Agri Magic continues to meet the needs for quality cost effective advice to its farmer customers it is essential that staff are competent in their roles, are fully conversant with the systems and processes utilised and developed by Agri Magic Limited and are able to use each to their full potential.

There is increasing need for farmers to demonstrate responsible use of nutrients and farm management practices that do not have a significant adverse impact on the environment. Agri Magic Limited has been developing and delivering a range of services aimed at assisting farmers meet increasingly stringent scrutiny. Agri Magic provides support to farmers that require more sophisticated environmental advice to help with planning for the environmental effects of potential farm system changes; and/or resource consent applications for farm system changes; and/or to meet regulatory requirements.

The role will require close liaison and communication with the wider Agri Magic team in order to provide a superior service to farming customers or other industry stakeholders. It will also require up to date knowledge of current and emerging policy and the impact it may have at farm level.

Agri Magic has four key values that serve as our guiding principles, they describe what is fundamentally important to us:

- Intellectual honesty and curiosity
- Commitment to Agriculture
- Genuine passion for People
- Dedicated and dependable
